## **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 103***

Claims 2-5, 7-10, 12-15 and 17-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Proebsting et al. (US Pat 6,804,134 hereafter "Proebsting"). See also Office Action of March 09, 2007, pp. 2-3.

Applicant's arguments have been fully considered but not deemed to be persuasive. In particular, Applicant appears to further emphasize on the "capacitance" characteristics of the matchlines; eg. the recitation "each of a plurality of matchlines connects to the same number of CAM cells" (claim 2, last line). This seems to add nothing further to the claims since the scope of the claims already encompasses this feature; ie. "the matchline and sinkline being shared by all of the cells in a same segment" (claim 2, line 5).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2824

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
